His books have been translated into 41 languages and have been sold in over 27 million copies. Eurocon 2007 will offer a number of lectures about Stanislaw Lem and his writing.

Eurocon 2007

Eurocon 2007 will be the first Eurocon ever held in Denmark! Deals have been made with several major international guests, but we can guarantee that a wide range of Scandinavian and continental European writers, artists and editors will show up – as well as hundreds of fans.

The venue chosen for Eurocon 2007 is Valby Kulturhus, a community hall that has housed a dozen national science fiction and anime conventions in the past. It is located near a major Copenhagen train station and close to several hotels and a youth hostel.

Eurocon 2007 offers a large and varied multi-track program that mixes fantastic fiction with fantastic science. The program runs from Friday afternoon to Sunday evening. There will be an art show, including many paintings by Guest of Honour David A. Hardy. We will also offer a media show including an anime program and a cosplay competition.

Watch www.eurocon2007.dk for upcoming news.
